

Speaker: Luigi Fusco
 Organization: European Space Agency

- **Frascati Living Lab - FLL**
- **Description:** FLL aims to support, in real life scenarios, the development, experimentation and operation of:
 - **Innovative applications** involving **incubation** processes, such as those promoted in the ESA-BIC_Lazio incubation initiative, and the further integration of SMEs
 - **Transfer and use of space technologies** (including Earth Observation, Navigation and Spacecom and their integration) to non-space sectors;
 - More **traditional applications** in sectors such as environment, agriculture and tourism, to serve both the science and the value added service communities.
